FREE DELIVERY.

Recent Experiments are a Pronounced Success.

AN INCREASE OF REVENUES.

A Still More Liberal Scheme Will Be Submitted to the Next Congress by Postmaster General Wanamaker—Various Other Dispatches from the National Capital.

WASHINGTON, Sept. 8.—Postmaster General Wanamaker was very indignant yesterday when he learned that during his absence on vacation an ill-informed clerk in one of the bureaus of the post-office department had given out false information to the press that the free delivery experiments are not a success. He caused an examination of the latest reports from these experiments to be made, and found that they were succeeding beyond the most sanguine expectations, and in a way to utterly confound the critics of the experiment.

It is already an established fact that the increased revenue in the offices where the free delivery experiment is on trial almost pays for the increased expenditure, and it is hoped by judicious management that in the average the experiment will entirely pay for itself. Mr. Wanamaker has it definitely in mind to present the next congress a scheme by which, when a given sum is asked for, free delivery in a given community, the sum being calculated on the area to be served, the population and other such items, it is almost a mathematical certainty that a sum almost if not quite as large will be added to the net earnings of the office in question. Even if the free delivery does not quite pay for itself, and it is not likely the postmaster general will ask congress to consider the question whether the rural districts of the country may not properly expect this slight contribution to their postal facilities where in so many quarters they have up to the present time been considered so limited.

SAFETY OF THE MAILS.

The Special Delivery Taking the Place of Registry.

WASHINGTON, Sept. 8.—"As soon as the people generally get hold of the point there will be few registered letters sent through the mails," said a postoffice department official. "Do you know that the same care is exercised over a letter deposited for special delivery that is given a registered letter? Well, it is true. You can have a letter delivered by special messenger without any delay, for ten cents. It costs the same to register a letter. The government does not insure the delivery of a registered letter. It only promises to exercise the greatest possible care in delivering it to the person to whom it is addressed. It is put in a special pouch. The same is true of a special delivery letter or package. The cost and care is identical the same, with the advantage of having the special delivery delivered sooner than the registered package."

It is stated that as this point of difference becomes known the registry business diminishes and the special delivery increases. It threatens to become a serious matter to the revenues of the government. There is very little, if any, profit in the special delivery business. It costs ten cents in most places to deliver a letter or parcel. The registry business is largely clear profit. Only the clerical and stationery outlays make the expense of the system. The same expense, however, accrues to the special delivery system.

Flax Statistics.

WASHINGTON, Sept. 8.—The census office has just issued a preliminary bulletin giving the statistics of the acreage in flax and amount of seed produced in ten western states during 1890. It is as follows:

	Acres.	Bushels.
Idaho	8,002	83,409
Iowa	217,745	2,118,032
Kansas	114,009	994,137
Minnesota	803,707	2,721,887
Missouri	56,420	450,766
Nebraska	163,900	1,401,104
North Dakota	38,724	164,445
South Dakota	355,894	1,801,108
Washington	4,270	42,240
Wisconsin	6,076	68,277

Artificial Frost Prevention.

WASHINGTON, Sept. 8.—As an outgrowth of Senator Farwell's scheme for artificial rain production, artificial frost prevention is now suggested. L. G. Kniffen, of Chicago, has written a letter to Secretary Rusk on the subject. His theory is that clouds of artificial mists prevent the radiation of heat from the earth. He suggests that the machinery and materials used by Colonel Dyrenfurth in causing rain be tested as a means for bringing the clouds closer to the earth and of creating a sort of a fog which will be a preventative against the ravages of frost.

War Vessels Ordered to Honolulu

WASHINGTON, Sept. 8.—Orders were sent from the navy department yesterday evening to the commander of the Pensacola at San Francisco ordering him to sail without delay to Honolulu. The Pensacola has been under sailing orders for some time. The United States has not been represented by a man-of-war in the Hawaiian Islands for several months and the state department has come to the conclusion that this government has too many interests in that locality to delay longer in having the stars and stripes absent from Hawaiian waters.

New Chilean Government Recognized.

WASHINGTON, Sept. 8.—The department of state telegraphed to Minister Egan on Sept. 4 that if a government acceptable to the people had been formed by the congressional party that he

should recognize it and open communication with its head. Yesterday the department received a telegram from Mr. Egan stating that a provisional government had been established on the 4th inst., with Jorge Montt as president, and was universally accepted by the people, and that he (Mr. Egan) was in very cordial communication with it.

Treasury Transactions.

WASHINGTON, Sept. 8.—The heavy payments made in the redemption of four-and-a-half per cent. bonds within the past few days have had the effect of pulling the treasury balance down from \$80,274,394 on Sept. 1 to \$53,047,618. Four-and-a-half per cent. bonds, to the amount of \$24,037,806, have been extended to date, and \$9,836,700 in amount have been redeemed.

A MEETING OF GOVERNORS.

Two. Two State Executives Expected to Visit Columbus, O.

COLUMBUS, O., Sept. 8.—Chairman Neal, of the Democratic state committee, is arranging for a meeting of Democratic governors here for Oct. 6. He says he expects here on that occasion Governors Francis of Missouri, Stone of Mississippi, Winans of Michigan, Russell of Massachusetts, Jackson of Maryland, Nichols of Louisiana, Brown of Kentucky, Fleming of Florida, Reynolds of Delaware, Eagle of Arkansas, Jones of Alabama, Abbott of New Jersey, Fowler of North Carolina, Pattison of Pennsylvania, Buchanan of Tennessee, Hogg of Texas, McKinney of Virginia, Wilson of West Virginia, Peck of Wisconsin, Boise of Iowa, Boyd of Nebraska and Hill of New York.

There will be speaking on each of the four fronts of the state capitol building in the evening, and excursions will be run from all parts of the state.

LABOR DAY.

It Was Observed More Generally Than Heretofore.

NEW YORK, Sept. 8.—Yesterday was Labor Day throughout the United States. Originating in this city, the observance of a special yearly day of recreation by the wage-earners has become more general with each succeeding year, and advice from all sections of the country say that the celebration of 1891 was even more general than in previous years.

In many small interior towns in Ohio, Indiana, Iowa, Wisconsin, and other states where there has hitherto been no recognition of the day, the workmen entered with zest upon a proper observance. The parades and picnics of this Labor Day throughout the country was numbered by many thousands.

Female Aeronaut Falls Into a Lake.

PEORIA, Ill., Sept. 8.—Mme. Kiefer, an aeronaut, fell in Peoria lake Sunday. She made the ascent under protest, as a strong wind was blowing at the time. When at the height of 5,000 feet she cut her parachute loose and dropped. The parachute did not open quick enough and she fell into the lake. She was rescued, but was unconscious, and it is thought she will die. Mme. Kiefer is the wife of the man who fell into the lake a week ago.

Tunnel Caves In.

STEVENSVILLE, O., Sept. 8.—The false work supporting the arch at No. 9 tunnel, at Cadiz junction, on the Panhandle railroad, which is being arched for a double track, gave way yesterday at 2 o'clock, letting an immense amount of material down on the gang of workmen employed there. John Edwards, foreman, was badly crushed and will die. John Sullivan and Mike Burns were seriously injured. Trains were delayed two hours.

New York Republican State Ticket.

ROCHESTER, N. Y., Sept. 8.—The slate of the Republican party is agreed upon as follows: For governor, J. Sloat Bassett; lieutenant governor, Philip Becker, of Buffalo; secretary of state, John W. Vrooman; attorney general, William A. Sutherland; comptroller, Senator Einstein. Should Becker refuse the nomination for lieutenant governor it will probably be offered to Wadsworth, and in the event of his refusal to McAlpin.

A Strong Organization.

HOUSTON, Tex., Sept. 8.—A newspaper here has secured a copy of the secret circular which the colored Alliance is sending to the cotton pickers throughout the state. It says that the new organization of cotton pickers is 600,000 strong, and appoints Sept. 12 as the day for the strike of that body, unless their demands for \$1 for every one hundred pounds of cotton picked are granted.

Violated the Lottery Law.

MILWAUKEE, Sept. 8.—John F. Cramer, of the firm of Cramer, Aikens & Cramer, proprietors of The Evening Wisconsin, was arrested yesterday by the United States authorities on a charge of publishing lottery advertisements. The charge on which the prosecution is based are two accounts of a San Francisco paper attacking the validity of the lottery law.

Roasted to Death While Drunk.

BUENA VISTA, Colo., Sept. 8.—Last night about 8 o'clock a man named James Kehoe was found lying at a bonfire badly burned. The man had evidently been drinking and laid down at the fire to sleep his drunk off. His left side and head was almost roasted. He was taken to the fire station, where he died at 4 o'clock this morning.

Overdose of Morphine.

LEXINGTON, Va., Sept. 8.—Dr. S. McD. Gold, a prominent physician in the Shanadorah valley, was found dead in his bed at his home in Buena Vista yesterday, death being due to an overdose of morphine.

Blew Out the Gas.

TOLEDO, Sept. 8.—Joseph Deer, of Vermontville, Mich., blew out the gas in a room at the Burnett House and died from asphyxiation before relief came.

THE COPYRIGHT LAW

How the New International Law Works.

A SPECIAL INQUIRY MADE.

Alexander P. Brown Interviewed on This Important Subject Just After Returning from a Trip to England—He Found Several Surprising Things Abroad.

BOSTON, Sept. 8.—Alexander P. Brown has just returned from England, where, as counsel for several English publishing houses, he has been making a special inquiry into the working of the new international copyright law. He found some English publishers disposed to complain of the provisions as to the American manufacture of American editions as being a hardship upon them, but he answered this objection by pointing out that if the books were not worth the cost of protecting by copyright all they had to do was to publish without copyright as now. They also fully recognized that the real reason why American printers insist upon the insertion of the so-called "manufacturing clause" in their new law was not so much on account of what English publishers might do but largely because a custom was growing up among American publishers of manufacturing editions of books by American authors in Great Britain which were intended for sale in the American market.

"For instance," said Mr. Brown, "if I am not mistaken the American edition of 'Silas Lapham' was made from type set in Edinburgh. I was surprised to learn that the practice of setting book type by machinery was becoming general in London and that the cost of manufacturing book was for this reason considerably reduced. I was shown specimens of machine set books and the work certainly seemed to me to be as well done as by hand. I also met a number of the leading music publishers of London and found them, as a rule, much more attentive to the importance of American copyright protection of their goods than their brethren of the book trade appeared to be. I found that several of them had rather made or were then making arrangements for the establishment of American agencies and for the manufacture of the American edition of their goods in either New York or Boston."

HOME RULE IN IRELAND.

Michael Davitt Says It is but a Matter of a Few Years.

SAN FRANCISCO, Sept. 8.—Michael Davitt has been living in Oakland for a few months and now he is going to return to Ireland to his life work. In an interview he said:

"Ireland is on the brink of freedom. Home rule is only a matter of a few years. Parliament may be run by English law until 1893, but there is so much dissension and difference in political factions that Salisbury must call the general elections for April next or at worst for the following autumn."

Passed a Forged Check.

MANSFIELD, O., Sept. 8.—A young man who gave his name as J. H. Hilton, but refused to give his residence, was arrested here last night, having in his possession a check on the Citizens' bank for \$5.50, payable to J. G. Hilton, and signed by E. M. Wolfe & Company. The latter pronounce it a forgery. Earlier in the evening he had presented a similar check in payment for a small purchase of meat at a butcher shop, securing the balance of the check in cash. The fellow is unknown here.

Prison Guard Put to Sleep.

MANCHESTER, N. H., Sept. 8.—Early this morning two prisoners at the industrial school, named John Tobin and Frank Willis, placed some sleeping powders in a glass of lemonade and gave it to Albion Clough, a watchman. When the latter was stupid from the effect of the powders, the two prisoners beat him with a ball bat and a brass nozzle. The noise was heard by another prisoner, who gave the alarm, preventing any further injury to Clough and the escape of the assailants.

Arrested for Arson.

CANTON, O., Sept. 8.—Samuel Kline was yesterday arrested on the charge of arson, the complaining witness being his wife. They have not been living together, owing to domestic troubles. The household goods were stored in the house preparatory to their removal by the woman. The house was broken open and a fire started among the goods. After burning a hole in the floor and a portion of the goods the fire went out as mysteriously as it was started.

Imported an Alien.

CHICAGO, Sept. 8.—Abram Elder, president of the A. P. T. Elder Publishing company, and H. L. Barber, his assistant, were held in \$500 bail each to the federal grand jury yesterday on the charge of having imported an alien under contract to work as a laborer. On the charge of violating the postal regulations in obtaining money through false pretenses, Elder and Barber were held in \$1,500 bail, by Commissioner Hoynes.

Visiting the East.

AUGUSTA, Ga., Sept. 8.—A delegation of twenty-six prominent citizens of Augusta left yesterday for a tour of the north and east, their route including visits to New York, Boston, Lynn, Lowell, Fall River and other manufacturing centers. The object of the trip is to extend to the various boards of trade invitations to attend the Augusta exposition in November. They will also visit Montreal and probably Toronto.

CAPE MAY, Sept. 8.—The president has pardoned Julius Street, of Mississippi, for violation of pension laws, and refused Jasper Smith, of Mississippi, clemency for perjury.

INTERESTING RELICS.

A Strange Collection Made by an Indiana Man.

MARTINSVILLE, Ind., Sept. 8.—Clarence B. Harrold, of this city, has a collection of interesting relics, which includes several small pieces of stone from the palace of Julius Caesar, Rome; nails taken from old Fort Halifax, Me., built in 1754; a piece of wood from David Crockett's cabin at Lawrence, Tenn.; a piece of Commodore Perry's flagship Lawrence; section from the old elm tree that stood in the Boston common; a piece of stone picked out of the walls of Vera Cruz, Mex., by Lieutenant Tansey, by the aid of a bayonet, during the Mexican war; a bayonet scabbard worn during the war of 1812; a spike-nail taken from John Brown's fort at Harper's Ferry; an almanac published in 1786, being 105 years old; a piece of coral from the coast of Lower California, which was a keepsake of the famous Joaquin, a Mexican bandit, which was brought from that state in 1856; a copy of the Philadelphia Packet and Daily Advertiser, published in 1787; a piece of a rock upon which it is said Thomas Jefferson stood while making a speech during his candidacy for president, a copy of 'The Saints' Everlasting Rest,' printed in England in 1765; an original deed made in Surry county, N. C., in 1798; an old-fashioned brass candlestick, over ninety years old.

He also has samples of soil from thirty-two states, also from Italy; and a large collection of minerals, several hundred labeled specimens of silurian and carboniferous fossils, besides many relics of lesser prominence. A few years ago Captain Archer, of Spencer, purchased a fine collection of stones and minerals of Mr. Harrold, and presented it to the public schools of Spencer.

SITUATION IN MEXICO.

A Belief That She is on the Eve of a Revolution.

GALVESTON, Sept. 8.—A gentleman interested in railroad building in Mexico and connected with jetty works at Tampico very recently arrived at Galveston from that country, and in the course of an interview made some startling statements. "Mexico," said he, "is now on the verge of a revolution. During my stay in the republic I had a splendid chance to study its people and a large number of persons of the lower class of Mexicans employed. Many Mexicans expressed themselves as greatly dissatisfied with the government and would willingly rebel if there was any one to lead. The people are opposed to military law, and an outbreak might occur at any time. A large portion of the better class of Mexicans who are opposed to Diaz's administration are circulating among the ignorant classes and leading them to believe that Diaz is working in the interest of the United States government in granting railroad franchises to corporations whose stockholders are citizens of the United States."

"Before leaving Tampico I visited an old French doctor, who has been an inhabitant of Mexico for the past forty years, and he informed me that in case of an uprising I had better leave, as the feeling against Americans, and especially citizens of Texas, is very bitter. In talking over the situation, he said that the prospects for a revolution had not looked so ripe for many years. The success of the Chilian insurgents over Balmaceda had given the Mexicans great hope, and many believe the Diaz government can be overthrown in the same manner. This is the true situation, without any prejudice to either party."

TENNESSEE LEGISLATION.

A Very Important Proposition Will Soon Be Made to It.

NASHVILLE, Sept. 8.—The senate met yesterday and adjourned in observance of Labor Day immediately after Mr. Penland's bill to repeal the convict lease law had been offered.

The Tennessee Coal, Iron and Railroad company, the lessee of the penitentiary, will, through the chairman of the penitentiary committees of the legislature, submit a proposition to cancel the present contract and make a new one. According to authentic information the lessees agree in this proposition to pay \$1 per diem for the labor of each convict, the state to feed and clothe the convicts and bear the expense of transporting them to and from the main prison.

The lessees propose to employ all able bodied convicts at the mines in Marion, Bledsoe and Sequatchie counties only. They offer to erect a new prison by convict labor at a cost of several hundred thousand dollars, and confine within its walls all convicts who are not strong enough to dig coal. The new prison is to be built at the head of Sequatchie valley, under the direction of the state architect, and 500 acres of ground surrounding will be given to the state, the ground to be worked by the partially disabled convicts.

WITH A DYNAMITE BOMB.

Sensational Suicide in a San Francisco Hotel.

SAN FRANCISCO, Sept. 7.—F. L. Caroli registered at the Prescott House yesterday morning as William F. DeYoung, of Fresno. Shortly afterward an explosion which shook the buildings in the neighborhood attracted attention to his room, and it was found that he had committed suicide by exploding a dynamite bomb. His remains were scattered all over the room, and one of his arms was found in the street. The windows and plastering were broken and the furniture damaged.

The deceased had been working on a fruit farm near Fresno. He told a number of persons here that he intended taking his life, as he wanted to create a sensation for the newspapers, but in a note to the coroner, which he left, giving his age as forty-one years and birth place as Holland, he says he committed suicide because life was not worth living.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

TUESDAY, SEPTEMBER 8, 1891.

GOVERNOR BROWN made a serious mistake by failing to consult the Covington Post in selecting his Cabinet.

The bottom seems to have dropped out of the glass works at Ashland. The Signal says the prospect is not very good for them to be finished. And an exchange stated a few days since that Middlesborough's boom is about in the condition of the Ashland glass works. Booms are dangerous things to "monkey with" these days.

MR. FOSTER, President Harrison's Secretary of the Treasury, boastfully says: "The Republican party is the party that does things." That's true. It voted away a billion dollars almost at the last session of Congress. And in two or three years it has got away with that surplus of \$100,000,000 turned over to them by the Democrats.

OUR NEIGHBORS.

ORANGEBURG.

C. A. Dorsey has gone to Richmond, Ky., to attend court.

Miss Alice Dorsey, of Maysville, visited T. P. and C. A. Dorsey last week.

Miss Hattie Mayhugh left last week to take charge of her school in the Murphysville neighborhood.

We understand that Charles Farrow, who got burned out last Sunday a week, has started his grocery again.

A. P. Bullock and sister, Miss Lucy A. Bullock, spent Sunday with their sister, Mrs. Anna S. Ross, of this place.

The meeting held here by Revs. Zeigler and Spicer is still going on. They have had nine additions up to the present time.

GERMANTOWN.

J. Brady Jolly has entered college at Lexington.

Miss Anna Pepper has entered school at this place.

Mr. R. M. Caldwell and wife, of Bourbon County, are visiting her father's family.

Our school opened Monday morning with Prof. T. J. Curry in charge, assisted by Miss Sallie Bishop.

Rev. Holmes, of the Baptist Church, preached at M. E. Church, South, Sunday night an interesting sermon to a large and appreciative audience.

Among those seriously sick with the prevailing typho-malarial fever are Cecil Pollock, on Broadway, and Mrs. Amanda Elliott, at George Bishop's.

Mr. W. R. Cribfield returned from Manchester fair with five premium ribbons, being successful in all rings in which he entered. He thinks Banner Boy a world-beater.

Miss Smith, of Brooksville, will teach the school at Beech Grove; Mr. Marnie Mike Harget at Bridgeville; Grant Griffith at Hillsdale, and Miss Tarleton at Tangletown.

SARDIS.

Bob Bland sold a bunch of mountain ewes to Reuben Weaver at \$1.50 per head.

Billie Mungua delivered his tobacco Saturday to the W. J. Ross warehouse at 6 cents all round.

Great enquiring for farms to rent. Farmers with a crop of industrious boys are the lucky ones.

A. S. Piper and S. H. Mitchell, of Mayslick, are selling their one and two-year-old bucks at \$10 per head.

Miss Rena Burroughs, one of Portsmouth's bright young ladies, is the guest of Miss Belle Arthur, on Shannon.

W. A. Hutchison had a wart removed from the back of his neck by Dr. Wheatley. It interfered with his standing collar.

Prof. W. R. Chaudier is a bright addition to the society of Mayslick, where he goes to lead the boys and girls up Science Hill.

Tobacco is a drug in the Mayslick market. Dr. Parry was taking in one of his North Fork tenants' crop at 3 cents last Saturday.

One of Shannon's best girls, who had many admirers at Park's Hill, leaves her home to-day for Owensville for a position in the Babbitt Academy—Miss Em Lee Browning.

According to Colonel Alfred Soward, an exemplary man was one who raised eight hogsheads of tobacco. Dr. Browning and son, Wood, raised fifteen hogsheads last season and have prized it for Cincinnati market.

Dr. Groves has no tidings of his lost, strayed or stolen sheep. He suspects some unscrupulous Pharisee got it and butchered it for a religious feast. The Doctor is one of our most skillful veterinarians, and the types must not call him Dr. Groves.

A protest very numerous signed is in circulation against the removal of H. D. Watson and his interesting family. Maysville, Shannon can not afford to be blank as much as she desires contribute to the attractiveness of the Hills City society.

The remodeled church of the Disciples at Mayslick will be finished and dedicated in November. Who will be the orator and what couple will be honored ones to go to the altar first with memorial intent deponent sayeth not. You guess, if you dare.

Miss May V. Dobyns, after visiting friends in Flemingsburg and Olivet, was out calling on Shannon Sunday afternoon. She was accompanied by Mr. J. H. Grigsby, Jr., and Miss Carrie Dye. A handsome trio. They lifted the cloud out of Desha Valley and planted a glint of sunshine.

Captain Brown and Captain Jackson are two of the most important characters in Mayslick on Saturday evening—the one dispenses the Enquirer and Commercial and the other the EVENING BULLETIN. The mammoth city dailies are bought, but the little BULLETIN is read, every line with avidity.

Mary Willie, the youngest daughter of H. D. Watson of Shannon, had a narrow escape from bleeding to death last Sunday. While coming out of the cellar with a pitcher of milk her foot slipped and she fell on the broken pitcher. An artery was severed in the wrist and the blood gushed from the wound. Her grandmother held her arm up till the physician came. After an hour's bleeding the little girl fainted. A rubber ligature was placed round the arm and the wound bandaged. Though very weak from loss of blood she is regaining in strength.

"Forest Home" has many attractions—the Misses Dye, of Louisville, two of the sweetest girls in all the land, Miss Elizabeth Wilson, of Maysville, as lovely as she is winning, and last but not least, only in a physical sense, Grover Clarke, the last boy of a good mother—Mrs. Carrie Dye Clarke—only a day old when its mother went to heaven. The little cherub has many visitors. May God's smile be its sunshine and heaven the reward of those who have it in charge. The good Shepherd hides the little lamb in his arms, that she who gave it life may hear its voice and be content.

A Minister's Opinion.

Mr. Jacob Connor, a German Baptist minister at Royer's Ford, Montgomery County, Pa., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, colic and cramp in the stomach. I have never used any medicine with better or more satisfactory results. I consider it one of the best ever used in our family. For sale by Power & Reynolds."

MEETING OF THE METHODISTS.

Matters of Interest Attended to By the Annual Conference at Harrodsburg.

At the Kentucky Conference, M. E. Church, South, at Harrodsburg, Friday, D. E. Beddinger, J. R. Nelson and W. A. Cooper were elected to deacons' orders. Rev. Strother and J. A. McClure were transferred from the third to the fourth year class.

Rev. J. N. Isam, Rev. Wyatt, Rev. G. W. Crutchfield, J. T. Terrill and M. P. Morton were elected to fill elders' orders. The local preachers elected to deacons' orders were B. M. Lancaster, from Lexington district, and Charles Washburne, from the Covington district.

Rev. J. W. Hughes applied for readmittance, and was admitted. Dr. Standifer applied for and received deacons' orders. W. W. McClure was granted elders' orders upon application.

The Board of Church Extension has helped build 387 churches altogether. Middlesborough has given more liberally than any town in Kentucky. The Society on Church Extension shows a total of \$2,500,000 worth of property.

Conference adopted an amendment to the constitution of the Preachers' Aid Society which says that "the funds of the society shall not be appropriated for the relief or assistance of any person whatever except itinerant ministers of the Methodist Episcopal Church, South, their widows and children; and these shall be assisted in proportion to the length of time such members have been effective traveling preachers, the extent of the labors and sacrifices in the service and the necessities of the claimant." No children over sixteen years old shall be aided.

The annual report of the Sunday School Board was filed. Rev. H. G. Henderson was elected President, Rev. Jennings, Treasurer and the Rev. Wm. Crutchfield, Secretary. The Board recommended the appointment of a Conference Sunday School Superintendent, whose duty will be to visit needy schools and supply the necessary literature to carry on their work. He is also to assist pastors in their work, and hold mass meetings, preach sermons and do anything that will assist the conference. The recommendation was adopted, and the Rev. W. H. Anderson, D. D., of Sardis, was appointed Sunday School Agent.

Kentucky Weather and Crops.

Following is the weekly crop bulletin of the Kentucky Weather Service in co-operation with the United States Weather Bureau for the week ending September 5: "The weather conditions of the past week have been characterized by a considerable deficiency in temperature, an excessive rainfall and a nearly normal amount of sunshine. The general effect was beneficial to all crops, though the weather was too cool for tobacco. Enough of rain has fallen for the present needs. All reports indicate that the corn crop will be an enormous one. Early-planted tobacco is being cut and housed. The late crop is doing fairly well, and with favorable weather conditions will probably be better than was anticipated. Much of it will be very late, owing to setbacks received early in the season. This will, of course, expose it more than usual to damage from early frosts. Potatoes and late fruits are reported to be abundant and of fine quality. Pastures are in excellent condition."

Here and There.

Mrs. James Cullen and son are visiting in Manchester.

Miss Viola Orr has gone to Cincinnati on an extended visit to her brother.

Messrs. John Ballenger and W. C. Miner arrived home last evening from their trip East.

Miss Alice Shea left yesterday morning for Cincinnati to attend the millinery openings, in the interest of the Bee Hive.

Miss Annabel Roser has returned from a visit at Lexington. She was accompanied by her sister, Mrs. G. W. Martin.

Mrs. H. T. Conde, of Indianapolis, who has been visiting friends in the county several weeks, is spending a few days with Mrs. Mary Riley, of West Second street.

County Court Doings.

George W. Blatterman, County Superintendent of Schools, executed bond for \$31,021.82, conditioned according to law, with L. C. Blatterman, Wm. Wormald, Emory Whitaker, C. B. Pearce, Jr., and M. T. Goddard as sureties.

An account of John P. Morton & Co., of \$5.60 and accounts of \$65.70 in favor of the Troup Manufacturing Company, (for poll books, file boxes and Justices' execution books) were allowed and ordered certified for payment.

The articles apprenticing Edward Ball, a colored minor, to Eugene R. Davis were canceled, and said Ball was returned to the County Infirmary. The boy is of feeble mind.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

An Ordinance

Providing for the Marking of Streets and the Numbering of Houses in the City of Maysville.

Be it ordained by the Board of Councilmen of the City of Maysville, That the name of Main Cross street, now called Market street, be, and the same is hereby, changed to Market street.

Sec. 2. And, be it further ordained, That the public buildings, business houses and private residences of the city of Maysville be numbered according to the following system: Beginning at Market street, the streets and alleys running at right angles therewith shall be divided into east and west; the first house on the northeast of said Market street shall be No. 1, and the first house on the southeast corner of said Market street shall be No. 2, the numbers alternating, the odd numbers being on the north side of said streets or alleys and the even numbers on the south side. When the first street east of Market street is reached, the numbers shall begin with 100 and alternate as above, and when the second street east of Market street is reached the numbers shall begin with 200; and this order of numbering shall continue to the eastern boundary of the city.

Sec. 3. And, be it further ordained, That beginning at Market street, the streets and alleys running at right angles therewith shall be numbered as follows: The first house on the northeast corner of said Market street shall be No. 1, and the first house on the southwest corner of said Market street shall be No. 2, the numbers alternating, the odd numbers being on the north side of said streets or alleys and the even numbers on the south side. When the first street west of Market street is reached, the numbers shall begin with 100 and alternate as above, and when the second street west of Market street is reached the numbers shall begin with 200; and this order of numbering shall continue to the western boundary of the city.

Sec. 4. And, be it further ordained, That buildings on all streets running parallel with Market street shall be numbered as follows: Beginning at Front street with No. 100 on the northeast corner, the numbers shall alternate as before, and when Second street is reached the numbers shall change to 200, Third street 300; and this order shall continue to the southern boundary of the city, the even numbers on the east side of the streets and the odd number on the west side.

Sec. 5. And, be it further ordained, That all streets and alleys shall be marked on their intersections by suitable signs, and that the marking of streets and alleys and the numbering of the houses herein provided for shall be done under the direction of the Committee on Internal Improvements, and that said committee at once invite proposals for the work, with power to give the contract to the lowest and best bidder, the work to be completed by the 15th day of November, 1891.

This ordinance shall be in force from and after its passage.
Adopted in Council September 3, 1891.
WILLIAM H. COX, President.
MARTIN A. O'HARE, Clerk.

DECCA'S CONCERT.

A Unique and Picturesque Feature to Be Introduced Friday Night.

Society Belles for Ushers—A Parisian Innovation Inaugurated by the Princess D'Orleans.

The grand concert Friday night, to be given by Mlle. Marie Decca to her many friends in Kentucky, will not only be a great musical event, but also a pronounced social affair.

A very pleasing and picturesque feature is to be introduced, which has never before been inaugurated in America. The opera house ushers at the concert will be a bevy of beautiful belles selected from the society girls of which Maysville justly boasts. The toilets of the young ladies will be exceedingly pretty, and prepared especially for the occasion. The ushers, in fact, will be representatives of the youth, beauty and chivalry of Kentucky.

The innovation originated in Paris, France, when the Princes d'Orleans gave a grand concert in the beautiful Trocadero Palace. A number of titled ladies and society belles, the *creme de la creme* of France's exquisitely robed and flower-adorned, with distinguished gentlemen for escorts, seated the vast audience, giving to each patron a gracious smile or a pleasant word, and making them forget, as the Princess laughingly remarked, the high price paid for their subscription tickets.

The ushers on Friday evening at Mlle. Decca's concert will be as follows: Miss Margaret Finch, Miss Mame Scott, Miss Annie Frazee and Miss Elizabeth Wadsworth. The gentlemen escorts are Judge Thomas R. Phister, Mr. John G. Wadsworth, Mr. George Keith and Mr. Wm. January of Chicago.

Judging from current rumors, the concert will be a full-dress affair, and be attended by the leading society people of Northern Kentucky. Nearly every leading town within a radius of fifty miles has made application to Manager Chrisman for reserved seats. The opera house itself will be beautifully decorated with flowers and tropical plants, and with the exquisite music of Mlle. Decca, will be transformed into a sort of fairy land.

River News.

The Wells goes to Augusta morning and evening, and the Silver Wave leaves at 1 p. m. daily except Sunday, for Vanceburg.

The Andes will be taken on docks at Cincinnati and will have a new hull built. It will be fifteen feet longer and two feet wider than the present one.

The Congo is due up at 9 p. m. for Portsmouth and the Bonanza at midnight for Pomeroy. Down: Carrollton at 5 p. m. and St. Lawrence at midnight.

A correspondent, writing to "The River," published in St. Louis, says: "The business of the Ohio river is increasing every year. The boats running between Louisville and Cincinnati carried more people both ways during the months of June, July and August than all the trains—three a day on each—the Short Line and O. and M. roads—a railroad on each side of the river. Boats are bringing freight from Pittsburgh to Louisville in from three to ten days quicker than railroads are doing it."

WM. KENNEDY, aged twenty-eight, of Lewis County, and Mrs. Sarah E. Patterson, aged twenty-five, of Mason County, were married Saturday by Judge Phister at the County Clerk's office. Mr. Kennedy is the bride's third husband.

HOWEVER excellent the form of advertisement may be and however persistently pushed, it must be placed in a medium which reaches the people of the class desired, and the greater number of readers, the greater value of the medium. —Advertiser's Gazette.

MRS. MAHALA KEITH, of Fleming County, is visiting Mr. and Mrs. C. L. Overley, of East Third street. Mrs. Keith is a sister of Mr. John B. Overley, more familiarly known forty years ago as "Buck" Overley, when he clerked for Messrs. Miner & Lawew.

MR. J. W. CASON has accepted a position as Chief Clerk under Mr. F. E. Janowitz, agent of the B. & O. S. W. railway at Cincinnati. Mr. Cason formerly held a similar position in the freight office of the C. & O. and K. C. at this place. He is succeeded here by Mr. John Shea.

THE Kentucky Central ordered a special train out from this place to Paris last Saturday night to bring in a lot of passengers, but there were only six people in waiting when it reached that place—three for Millersburg and three for Carlisle. The train got back Sunday morning at daybreak.

THE first Sunday in October will be observed by all Christian Churches as Kentucky Mission Day; all pastors are expected to preach on that subject that day, and take a collection for special evangelistic work throughout the destitute portions of the Commonwealth. —Courier-Journal.

SEVERAL capitalists of Chicago have lately been investigating the Hinkson lead mine near Lair, Harrison County, and have concluded that it was worthy of the fullest development. They have made arrangements accordingly, and a number of expert miners will begin work on the mines at once.

NOW THAT the elections and fair, racing, &c., are over, and the wheat and tobacco is being handled generally, Frank Owens Hardware Co. are bringing to the front for sale hunting coats (canvass and leather), bird bags, loaded shells, ammunition of all kinds, and sportsmen's wear generally. Call and equip yourself in full for the winter's sport. Prices will suit the purchaser.

MOVING that cottage east of the bridge back to the high lot in the rear and raising it to the proper level was a difficult and tedious job, but it was accomplished without cracking the plastering. Logan Cook was the contractor, and had charge of the work. He is ready to undertake a job of that kind any day, and solicits orders for pile-driving, trestle work, foundations, &c. See his card.

THE city of Maysville will be within twenty days the best known city in America. The recent fuel gas invention will create more excitement throughout the country than all the oil and gas wells put together. Frank Owens Hardware Company have just received, clean and fresh, their vast stock of guns, imported direct from foreign makers, breech-loaders and muzzle-loading; also American makes, all of which they will sell very low.

HAUCKE'S REED AND BRASS BAND was tendered a grand ovation by the citizens of Portsmouth Sunday night. On reaching South Portsmouth they were met by a committee and escorted to the Biggs' House. While crossing the Ohio, they rendered "Old Kentucky Home" and "Dixie" and were cheered to the echo by fully five thousand of Portsmouth's citizens who had assembled on the river front in anticipation of their coming. The band returned home this morning well pleased with the way they were entertained by the people, and wish to return thanks to the committee, the proprietor of the Biggs' House and the people generally for their warm reception.

Reports of a Battle Fought in East Africa.

LIEUT. STUHLMANN KILLED.

Slave Traders Attacking the German Forces Commanded by Emin Pasha at Every Opportunity - The Expedition Cut Off from Receiving Relief or Supplies - Other Foreign News.

LONDON, Sept. 8.—A serious disaster is reported to the German expedition in East Africa, where the Arab slave traders have been carrying on a savage fight with the Germans, the latter commanded by Emin Pasha, supported by Lieutenants Stuhlmann and Langheld. At the latest previous accounts Emin was on his way to Lake Tanganyika, en route for Ujiji and the slave traders were attacking him and his forces at every opportunity. The val of Karagwe tried twice to send goods after the Germans, but the bearers had to return, some of them wounded.

Now comes a dispatch from Zanzibar stating that in a skirmish at Lake Tanganyika, the natives, probably slave traders, have killed Lieutenant Stuhlmann in a skirmish. Farther particulars as to the safety of the German force are anxiously awaited.

Labor and Socialism.

LONDON, Sept. 8.—The meeting of miners at New Castle will probably witness a sharp conflict on the subject of socialism. John Burns, the socialist leader, has lately been advancing his doctrines with more energy than ever, evidently in sympathy with the continental plan to identify socialism with the labor cause. The miners are divided on the question, and the Conservatives among them will present a bitter opposition to the Burns idea. A feature of the gathering is the large increase in the number of woman delegates, reminding the public that female labor still plays an important part in the British coal mining industry.

No Jews on the Police Force.

ST. PETERSBURG, Sept. 8.—The Russian police in all parts of the empire and beyond it have been instructed to discharge Jews from the police service. Large numbers of Jews have been spies in the police service, and have displayed a marked aptitude for that kind of work. The detection of nihilist conspiracies has in nearly every instance been brought about by Jewish agents of the secret service. The nihilists, it is said, will rejoice in the information that the astute Israelites are no longer to prey upon them, while the absence of this class of detectives will undoubtedly make more precarious the chance of discovering nihilist plots.

Had to Release Him.

BERLIN, Sept. 8.—Carleton Graves, the American who was on Saturday last arrested at Mayence on the charge of being a spy, has been liberated, the government having nothing on which to hold him. When arrested Graves represented himself as being a photographer and his residence as being Columbia. His luggage was seized by the German authorities and searched for evidence of his guilt, as it now appears to no purpose.

Thousands of People Will Suffer.

ST. PETERSBURG, Sept. 8.—The severe distress prevailing among the people has interfered with the success of the Nijni-Novgorod fair. Most of the goods exposed for sale are left in the hands of the exhibitors. This will result in the shutting down of many factories during the coming winter, and the throwing out of employment of thousands of workmen.

Thirteen People Drowned.

LONDON, Sept. 8.—The English bark, Fiji, running from Hamburg to Melbourne, Australia, has been wrecked at Warnambool, and thirteen of the crew drowned.

Train Telescoped.

PARIS, Sept. 8.—Owing to neglect by a pointsman at the Mareuil station, Vendee, a train telescoped the terminus buffers, and fourteen persons were injured.

Waterspout Damages.

VIENNA, Sept. 8.—A waterspout at Rudapesth has caused immense damage to the railroad embankment and a freight train was demolished.

Fell Over a Precipice.

BERLIN, Sept. 8.—Dr. Holst, a Prussian magistrate, while ascending Mount Terglou, in the Carnic Alps, fell over a precipice and was killed.

The Vacancy Still Exists.

ROME, Sept. 8.—For the third time the Vatican has declined to accept Russia's nominees for the vacant bishoprics in that country.

Game of Cards Causes a Murder.

NEW YORK, Sept. 8.—Murder was the outcome of a game of cards in the Italian quarter of Tremont, yesterday evening. James Ross was shot and killed and his brother lies in a critical condition in the Harlem hospital. Four Italians, the Ross brothers and the brothers John and Nicoli Bollero, sat about a table at the home of James Ross, at One Hundred and Eighty-seventh street and Arthur avenue, about 7:30 o'clock. A dispute rose and the Ross, accused the Bolleros of cheating. Words came to blows and several shots were fired with the above result.

Exclusion Act Evaded.

BRATTLEBORO, Vt., Sept. 8.—The Chinamen arrested at Windsor under the exclusion act and ordered returned to China by United States Commissioner Johnson, but whose case was appealed on the ground that they held permits from the Dominion government to return to that country, were yesterday ordered to return to Canada by Judge H. H. Wheeler in the United States court. This decision is important, as it is claimed that all emigrants can readily obtain these permits, thus practically nullifying the exclusion act.

Louisville Tobacco Market

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.
Sales on our market for the week just closed amount to 5,751 hds., with receipts of 1,335 hds., for the same period. Sales on our market since January 1st amount to 116,336 hds. Sales of the crop of 1890 on our market to this date amount to 80,696 hds.
The market has again been very much crowded with burley tobacco for the past week, the offerings being principally of the common and non-descript grades, and prices for these sorts have been irregular at times, but closed with some better feeling. There has been a few hogheads of good to fine offered and they have sold remarkably well. Everything with color brings outside prices.
The following quotations fairly represent our market for new burley tobacco: \$2.00@3.50 Trash (dark) or damaged tobacco..... 2.00@3.50 Colory trash..... 4.00@8.00 Common lugs, not colory..... 3.50@5.50 Colory lugs..... 5.50@12.00 Common leaf..... 6.50@8.00 Medium to good leaf..... 8.50@14.00 Good to fine fillers..... 14.00@22.00 Select wrappry tobacco..... 22.00@33.00

Weekly Review of Cincinnati Tobacco Market.

Says the Enquirer: Last week was a most remarkable one in regard to the number of hds fine and fancy tobacco offered and prices paid, number of hds beating the record for the highest prices in this or any other market: 94 hds sold above \$20, 200 hds selling from \$20 to \$24.75, 65 from \$25 to \$29.75, 21 from \$30 to \$34.25, 7 from \$35 to \$39.50, and 1 at \$46; for all of this kind competition was spirited, manufacturers bidding actively, all wishing to secure a share of these fine tobaccos. On Friday the climax was reached when Messrs. C. Tatman & Co., of Batavia, Ohio, sold at the Bodman Warehouse three hds fancy leaf, averaging \$40, prices being \$35, \$38 and \$46; the latter is the highest price paid on a regular sale in this or any other market, and was bought by Mr. Geo. W. Cox for J. J. Bagley & Co., Detroit, Mich.

Good leaf was in active demand and brought very full prices, as also colory trashes and lugs. Medium leaf and red tobacco, while showing a better feeling than last week, prices are not as a rule satisfactory. Common trashes and lugs showed a good, steady demand, and prices are unchanged from those current previous week.
Of the 3,099 hds 574 hds sold from \$1 to \$3.95, 556 hds from \$4 to \$5.45, 546 hds from \$6 to \$7.95, 277 hds from \$8 to \$9.95, 423 hds from \$10 to \$14.75, 390 hds from \$15 to \$19.75, 200 hds from \$20 to \$24.25, 65 hds from \$25 to \$29.75, 21 hds from \$30 to \$34.75, 7 hds from \$35 to \$39.50 and 1 hhd at \$46.

Below are given the names of some of the shippers and prices received for some of the fine sales:
At the Globe Warehouse: Pogue & Prather, 2 at \$20.50, \$23.25; Potry Jefferson, 1 hhd \$20.75; Hughes & Ballingall, 1 hhd at \$22.75. At the Bodmann Warehouse: J. D. McKibben, Augusta, 3 hds \$21, \$21.50, \$23.50; Dr. W. J. R. Corlis, Brookville, 9 hds \$20, \$20.50, \$20.75, \$24, \$24.25, \$25, \$25.25, \$25.25, \$27; Markley & Gray, Foster, 9 hds \$20.25, \$22, \$23, \$23.25, \$24, \$25.50, \$26, \$28.50, \$31.50; Bradford & Kinney, Brookville, 6 hds \$21, \$22, \$23.75, \$24.25, \$25, \$25.25; Jas. A. Powers, Augusta, 1 hhd \$34.25; H. R. Cushman, Flemingsburg, 3 hds \$20, \$20, \$23; Mann & Robertson, Carlisle, 1 hhd \$23.50; J. D. Gardner, Ripley, 4 hds \$20.75, 21.75, \$23, \$23.25; E. Martin, Ripley, 2 hds \$23, \$24.75; Richardson, Stivers & Co., Ripley, 8 hds \$20, \$20.50, \$21.50, \$22.75, \$23.75, \$23.75, \$24, \$28; A. E. Dugan, Higginsport, 2 hds \$21, \$21.75; G. F. SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
